## What's Next?

## FIRST → THINK ABOUT A DAY IN THE LIFE OF YOUR BATHROOM

The information you share will help you discover the role your bathroom plays in your life. Consider how you are using the current space and how the room meets, or falls short of, your needs.

The bathroom is one of the first rooms you see in the morning, and one of the last ones you see at night. Because it is one of the most frequently used rooms for homeowners and guests, it's important to add beauty, style and functionality to this space. Imagine a room where it's aesthetics are calming and inviting as well as functional and practical. We can help you design this room to do this and more. Here is a guide to help you start to create your bathroom space. Answer a few simple questions, then we can help you make it a reality.

Let's get started.

How quickly do you want to finish this project? What is your timeline?

Is your main goal to increase resale value or to update for your personal needs?

Full remodel or face lift?
